

A POWERFUL unit for the BIG jobs.

RivdomTWO - the powerful battery-powered riveter for blind rivets up to 6.4 mm diameter of all materials - also for high-strength versions!

With a setting force of 20.000 N and a very big stroke of 30 mm not only standard blind rivets and high-strength versions like FERÒ®-Bulb and FERÒ®-Bolt can be set quickly, dependant and without re-setting as well as folding blind rivets or ring bolts.

RivdomTWO²

Designed by **HONSEL | Germany**

L-BOXX®

The innovative overvalue packaging solution.

RivdomTWO is available in the widely spread SORTIMO L-BOXX system or only in a deep-drawn-part - fitting exactly into your already existing Sortimo boxes! Both versions are available with one or two 20 V Li-Ion batteries - wrapped by a solid cardboard.

Deep-drawn-part fitting

for SORTIMO L-BOXX Incl. RivdomTWO, alternatively with one (pictured) or two 20 V batteries, charger, nose pieces in box and wrench.

SORTIMO L-BOXX

Incl. RivdomTWO, alternatively with one or two 20 V batteries (pictured), charger, nose pieces in box and wrench.

Rivdom TWO²

The most modern motor technology.

The newly developed brushless BLDC direct current motor presents itself with an almost wearless, durable life cycle. Low power consumption and reduced heat build-up increase efficiency and effectiveness as well as battery runtime besides prolonged operating intervals. High drives at quite running at the same time and the integration of the tool's entire electronics into the motor can be realized.

The resulting saving of weight paired with the well-known perfect ergonomics guarantees a very comfortable handling.

- Standard nose pieces included in a separate box
- Special nose pieces available for several applications

**20,000 N OF SETTING FORCE!
30 MM STROKE!
BRUSHLESS MOTOR!**

LED illuminated working area

Sturdy, approved and safe.
Clear mandrel collector and mandrel protection lock inside the tool.

- Low weight
- Brilliant ergonomics
- Gummed comfort grip
- Optimized tool position
- Safe base

Optical capacity indicator
on every battery - for checking the charging conditions while operating!

Pioneering battery charging technology *plus*

A new developed electronic quick-charger which **identifies the utilized batteries automatically** is introduced with Rivdom TWO² for the first time! 16 V, 18 V and 20 V batteries can be charged with the same charger in the future. The charging time of the new Rivdom batteries sets new standards too: The 2,0 Ah Li-Ion battery is **completely charged in about 30 minutes!**
